October 15, 1958

Governor of Montana  
State Capitol  
Helena, Montana

Sir:

In compliance with Section 1349, Revised Laws of Montana, 1947, I have the honor to submit the Biennial Report of the Adjutant General of Montana, for the period, 1 July, 1956—30 June, 1958.

Respectfully yours,

S. H. MITCHELL,  
Maj. Gen., AGC, Mont. N. G.  
The Adjutant General

**Commander-In-Chief, Montana National Guard, Governor J. Hugo Aronson**

State of Montana  
Office of The Governor  
Helena  
**September 5, 1958**

J. HUGO ARONSON  
GOVERNOR

Dear General Mitchell and Montana National Guardsmen:

As commander-in-chief of the Montana National Guard, I am proud and happy to pay tribute to the record which you have compiled.

This biennial report will speak for itself, as far as that record is concerned, but I hope that all Montanans will realize the importance of this record and the need for continued National Guard strength at existing levels in Montana and all other states.

You can be certain that I will continue to fight for this goal, as I have done in the past. Montana is proud of its National Guard and wants it kept strong.

Very truly yours,

*J. Hugo Aronson*  
Governor

**MAJOR GENERAL S. H. MITCHELL**  
The Adjutant General  
State of Montana

**BIOGRAPHICAL SKETCH**  
**S. H. MITCHELL**  
**ADJUTANT GENERAL, STATE OF MONTANA**

Born January 13th, 1896, at Williston, North Dakota, and a resident of Montana since birth. Raised on a cattle ranch in Eastern Montana. Owned and operated own ranch since beginning of World War I. Educated in Montana schools but did not attend college or university.

Entered World War I in 1918 and served honorably approximately 18 months and was discharged with grade of Corporal.

Enlisted in National Guard of Montana in 1923 as an enlisted man and was commissioned Second Lieutenant in December 1927.

Served with the National Guard as Company Commander and State Staff Officer until induction in Federal Service in September 1940 with the grade of Captain. Was appointed Director of Selective Service in Montana on September 1, 1942, and was raised in grade to Colonel in December 1943.

Was separated from the AUS in September 1947 and was commissioned Brigadier General, AGD, in August 1947, as Adjutant General of Montana, being first appointed to that position in February 1943 while still on active duty in the AUS. Promoted to Major General 17 May 1955.

In addition to being Adjutant General of Montana, is also serving as State Director of Selective Service commencing under the 1940 Selective Service Law.

Has a family of wife and three daughters, church affiliations—Protestant.

# **POLICIES OF DEPARTMENT OF THE ARMY AND DEPARTMENT OF THE AIR FORCE RELATING TO THE NATIONAL GUARD**

## **I. DEFINITION**

### **A. National Guard**

The National Guard of the United States and the Air National Guard of the United States are integral parts and first line reserve components of the Army of the United States and the United States Air Force. The National Guard of the States and Territories continues to exist and in time of national emergency may be called or ordered into the Army of the United States and the United States Air Force through its National Guard of the United States status. All federally recognized units and elements of the Active National Guard and the personnel of the Inactive National Guard of the several States, Territories, the District of Columbia, and Puerto Rico together, constitute the National Guard of the United States.

## **II. MISSIONS**

### **A. Mission of the National Guard of the United States**

The mission of the National Guard of the United States is to provide a reserve component of the Army of the United States and the United States Air Force, capable of immediate expansion to war strength, able to furnish units fit for service anywhere in the world, trained and equipped to:

1. Defend critical areas of the United States against land, seaborne, or airborne invasion.
2. Assist in converting the mobilization and concentration of the remainder of the reserve forces.
3. Participate by units in all types of operations, including the offensive, either in the United States or overseas.

### **B. Mission of the National Guard of the Several States**

The mission of the National Guard of the several states is to provide sufficient organizations in each State, so trained and equipped as to enable them to function efficiently at existing strength in the protection of life and property and the preservation of peace, order, and public safety, under competent orders of the State authorities.

## **III. COMPOSITION OF THE MONTANA NATIONAL GUARD**

A. The organization and units allotted to the several States will be those which are equipped for the accomplishment of the mission of the National Guard, and when taken with the units of the Regular Army and the United States Army Reserve, and the Regular Air Force and the United States Air Force Reserve, will provide the essential forces required for early mobilization. Within the total allotment, organizations of the proper type will be allotted to each State to enable it to accomplish the Federal and State missions.

B. Units allotted to the State of Montana in accordance with the above policy are listed on page 13 of this report.

## **IV. STATE AND FEDERAL RESPONSIBILITY**

### **A. General**

The National Guard is an integral part of the Army of the United States and the United States Air Force and its success depends upon mutual confidence between the Federal government and the States and Territories. Such confidence is obtained only by the wholehearted efforts of all parties to maintain an effective National Guard.

### **B. Supply**

It will be the responsibility of the Departments of the Army and of the Air Force to clothe, equip, supply and arm the National Guard according to the standards established for the Regular Army and the Regular Air Force.

### **C. Facilities**

The division of Federal and States responsibilities is as follows:

1. The states will furnish the personnel, adequate armories, and storage facilities.
2. The Federal Government will furnish the outdoor training facilities.

#### **D. Training**

Unit training objectives will be to assume that all units will be capable of immediate mobilization and early development for field service. The training of the National Guard will be conducted by the National Guard organizations of the respective States under the supervision of the Chief, Army Field Forces and the Chief, Civilian Components, Branch United States Air Force, in accordance with policies prescribed by the Departments of the Army and Air Force. Periods of field training, attendance of personnel at service schools, and tours of active duty will be conducted in the reserve status of the National Guard of the United States and the Air National Guard of the United States. Armory drill training will be conducted in the status of the National Guard of the States and Territories.

#### **E. State Headquarters and Headquarters Detachment and Headquarters Montana ANG**

Within each State, there shall be an administrative staff to be designated as "State Headquarters and Headquarters Detachment and Headquarters Montana ANG" and which will be organized and federally recognized as a unit of the National Guard. The numbers and grades of officers, warrant officers, and enlisted men within the State Headquarters and Headquarters Detachment will be based upon the strength of allotted National Guard units to the State and, in addition, will provide a suitable number of officers and enlisted men for duties in connection with Selective Service and internal security.

#### **F. Instructors**

Under policies of the Department of the Army and Department of the Air Force, selection and assignment of qualified instructors is reserved as a function of Headquarters, Department of the Army, and Headquarters, Department of the Air Force. The supervision of the training responsibility of the instructors is vested in the Chief, Army Field Forces, and Chief of Reserve Forces, Headquarters, United States Air Force. Personnel on duty as instructors with the National Guard will have no command status with troops or units of the National Guard nor will they be subject to orders of State military authorities. The primary duty of instructors will be to advise and assist responsible commanders in the attainment and maintenance of that state of efficiency of the National Guard units as is prescribed by Headquarters, Department of the Army and Headquarters, Department of the Air Force.

#### **G. National Guard Bureau**

The National Guard Bureau is charged with administration of approved Department of the Army and Department of Air Force policies, other than those relative to training, for the National Guard not in the service of the United States. It is further charged with the promulgation of Department of the Army and Department of the Air Force directives and regulations applicable to the National Guard, including those relating to training. It is further charged with the keeping of Department of the Army and Department of the Air Force records pertaining to the National Guard, except for current records in time of war or national emergency.

#### **H. National Guard**

All policies affecting the National Guard are prepared by the General Staff Committee on National Guard Policy (known as the "Section Five Committee") for action by the Secretary of the Army and Secretary of the Air Force under normal Department of the Army and Department of the Air Force procedure. All regulations to carry such policies into effect are reviewed by this committee.

### **MONTANA ARMY NATIONAL GUARD ALLOCATION AND PRESENT STATUS**

#### **I. ALLOCATION**

The Montana National Guard is the organized military force of the State, except when ordered into Federal service in time of war. During times of peace, the Governor is Commander-in-Chief of the National Guard and exercises his command through the Adjutant General. The Adjutant General is assisted, during training periods, in the administration of the National Guard of the State by a Headquarters and Headquarters Detachment consisting of 16 officers and 26 enlisted men in the National Guard section and 8 officers in the Selective Service Section, for the Army N. G. The Adjutant General is assisted by Hq. ANG in the administration of the ANG which is composed of 4 officers and 3 airmen.

## II. DISCHARGES

A. During the two fiscal years covered in this report a considerable number of officers and enlisted men were discharged from the Montana National Guard for various reasons, thereby complicating the progressive training of the units. Discharges were granted for many various reasons, as listed below:

Resignations (officers)	Enlistment in another component
Hardship and Incompatible Occupation	Review of Application for Enlistment
Change of Residence to Another State	Accepted Commission in National Guard
Enlistment in the U. S. Army	Accepted Commission in Organized Reserve
Enlistment in the Marine Corps	Inaptness or Misconduct
Enlistment in the U. S. Navy	Continued Absence from Military Duty
Enlistment in the Air Force	

B. The total number of enlistments and discharges for the Army National Guard for the two fiscal years is as follows:

Enlistments	Discharges
1,894	1,381

C. The following charting shows the total enlistments and discharges for the Air Force National Guard for fiscal years 1957 and 1958. A further Breakdown is provided showing ETS (Expiration Term of Service) discharges, reenlistments and non-reenlistments. Discharges (Other) shows discharges for other reasons than ETS. New enlistments is self explanatory.

	ETS	Reenlist	Non-Reenlist	Discharge (Other)	New Enlistment
FY 1957 .....	111	101	10	99	266
FY 1958 .....	113	95	18	106	151
TOTAL .....	224	196	28	205	417

B. The Inactive National Guard was reconstituted and transfers were made in December, 1948. Inactive National Guard status is provided to allow individuals who, for one reason or another, cannot maintain active participation, to revert to an inactive basis but still maintain their connection with the Montana National Guard for potential emergency service. No Inactive National Guard has been established for the Air Force National Guard as of 30 June, 1950.

## TRAINING

### I. ARMORY DRILLS

Armory Drills are held forty-eight times per year at local armories. Each drill is of two hours duration and training is conducted in complete uniform and with equipment allotted to the various units. Officers and key Non-Commissioned Officers conduct classes in accordance with the National Guard Training Program covering the same military subjects given to personnel in the Regular Army. The complete training cycle requires three years and equals the basic and specialized training given Regular Army personnel. Most training at Armory drills is conducted in the form of lectures, training films, and practical On-the-Job training covering such subjects as specialist training, motor maintenance, survey, supply, administration, bridge construction, etc. Armory Drills are generally scheduled once each week, four each month, twelve each quarter.

The Air National Guard conducts their 48 drills on weekends, one weekend each month constitutes 4 drills. In addition, flying personnel are authorized 36 additional flying training periods.

### II. FIELD TRAINING

Field Training is a requirement of the Department of the Army and the National Guard Bureau. Successful training has been held each year since the re-activation of the Montana National Guard. Troops move from their home stations with all clothing and equipment for all fifteen day training period. The Federal Government pays the entire cost for housing, feeding, clothing, and training on the same basis as regular army units. The purpose of this training period is to put to practical test all the theoretical training given during the previous forty-eight Armory drills. Training is carefully watched by senior commanders and their staffs, by Regular Army instructors, and by an inspection team detailed by the Commanding General, Sixth Army. All deficiencies are corrected promptly and personnel instructed in the practical way to perform each task. Medical facilities are available at Fort William Henry Harrison at all times to handle any emergency. Personnel too seriously ill or injured are given first aid treatment and then evacuated to the Veterans' Administration Hospital, Fort Harrison, Montana, where the best possible medical attention is provided. The annual summer Field Training encampments for army units were held at Fort William Henry Harrison from 14 to 28 June, 1957 and 15 to 29 June, 1958.

The Air National Guard conducts their field training out of state in most cases. During 1957 the Air National Guard went to Boise, Idaho, 14 to 28 June, 1957 and in 1958 Field Training was at Natrona County Airport, Casper, Wyoming, from 14 to 27 July, 1958.

### III. SERVICE SCHOOLS

In addition to Armory Drills and Annual Summer Field Training Encampments, National Guardsmen received specialized training at General and Special Service Schools of the Army and Air Force. An important factor in selection to attend Service Schools is ability to instruct, since these personnel are detailed as Instructors in their respective units after graduation.

Courses offered range from common specialist sources such as: Cooks and Bakers, Automotive Mechanics. Leaders' Courses, etc., for Enlisted Men, through the various levels of command and staff for Officers.

Service School attendance for FY 1957 and FY 1958 for Army and Air National Guard personnel were as follows:

## V. SIX MONTH TRAINEES (ARMY NG) AND BASIC TRAINEES (AIR NG)

A. The Department of the Army requires that all non-prior service personnel enlisting in the Army National Guard after 1 April, 1957, except those persons between the ages 26 to 35, in a deferred status who possess technical skills, are required to perform an initial period of active duty for training. Montana Army National Guard personnel receive their basic training at Fort Ord, California, and then continue their six month training in a chosen skill.

B. The Department of the Air Force requires that all non-prior service personnel enlisting in the Air National Guard after 1 April, 1957 will be required to perform an initial period of active duty for training. All non-prior service personnel enlisting in the Montana Air National Guard receive an 11 week basic training course at Lackland Air Force Base, Texas.

<b>Six Month Trainees—Army National Guard</b>

## REGULAR ARMY INSTRUCTORS

### 1. GENERAL—PRIMARY MISSION

The primary mission of advisors with the National Guard is that of advising and assisting in the training, administration and supply of the National Guard organizations or units to which detailed.

### 2. SENIOR ARMY INSTRUCTOR

The Senior Army Advisor is the Senior Officer on duty with the Advisor Group and as such is the Commanding Officer of the organization and directly responsible to the Commanding General, Sixth US Army. He reports specifically to the Deputy Commanding General for Reserve Forces.

Responsibilities of the Senior Army Advisor are to assist and advise the Adjutant General, State of Montana in the training of the Montana National Guard so that they will be capable of meeting mobilization schedules by being prepared to be "Combat Ready" with a minimum of training after mobilization. This readiness is to be accomplished through the medium of informal inspections.

advice and assistance to the National Guard. Appoints Boards of Officers to examine Montana National Guard Officers and Warrant Officers who are candidates for Federal Recognition and for retirement of waivers and promotions. Appoints Physical Fitness and Efficiency Boards and orders Federally Recognized National Guard Officers to appear before such boards. Supervises subordinate advisors through inspections, consultations and policy directives to coordinate a uniform and effective means of improving training, administration, supply and discipline in the National Guard. Inspects new Armory Facilities for Federal approval to house National Guard units already Federally recognized. Determines adequacy of existing armories from the annual report of inspection of armory facilities. Protects the interest of the Army and the Federal Government by insuring that the interest of the Army and the Federal Government is consistently maintained through adherence to directives, policies, and regulations. Conducts the annual training inspection of the Montana National Guard Officers Candidate School to assure the maintenance of prescribed training standards. Provides administrative support for all advisor personnel.

### **3. ARMY ADVISORS**

Advisors act as representatives of the Army Commander and the Senior Army Advisor in their responsibility for the supervision of the National Guard Training. Advisor responsibility in regards to such training includes administrative functions and verification of attendance of Federally Recognized National Guard personnel at inactive duty training assemblies. Advisors perform other diverse duties within the broad scope of their mission as they individually see the necessity therefor, as requested by National Guard Authorities, or as directed by higher advisor authority.

## SUPPLY AND MAINTENANCE

### I. OFFICE OF THE USP & FO

Under authority contained in Title 32, United States Code, Section 708, there is established in each State an office of the United States Property and Fiscal Officer. A National Guard officer is appointed to be Property and Fiscal Officer, subject to the approval of the Secretary of the Army and the Air Force, and is ordered to active duty to serve in his state. The USP & FO functions under the direction of the State Adjutant General, and complies with National Guard regulations and policies of the Departments of the Army and the Air Force. Federally paid technicians are provided to perform the various administrative, fiscal and supply functions of the office.

An Administrative Assistant in a civilian technician capacity is provided to act in the absence of the USP & FO. To further assist the USP & FO in matters pertaining to the Air National Guard, Assistant USP & FO's for Air have been appointed in the Fiscal, Property and Real Property fields.

### II. MISSION

The mission of the United States Property and Fiscal Officer for Montana is to receive and account for all Federal property issued for the use of the Army and Air National Guard of Montana and to maintain such records and render such returns as may be required by the Chief, National Guard Bureau and the Secretary of the Army or the Air Force. He is responsible for obligating, accounting, reporting, financial planning and administrative control of all Federally appropriated funds allotted to the State for National Guard use. He is appointed Purchasing and Contracting Officer for the Army and Air National Guard of Montana for all Federal contracts involving the use of Federally appropriated funds. He is appointed Transportation Officer for the State and is responsible for arrangements for transporting National Guard personnel, civilian technicians, supplies and equipment when Federal funds are involved.

He is responsible for financial inventory accounting for all Federal property the value of which exceeded \$45,000,000.00 as of 30 June, 1958.

### III. MAINTENANCE OF SUPPLIES AND EQUIPMENT

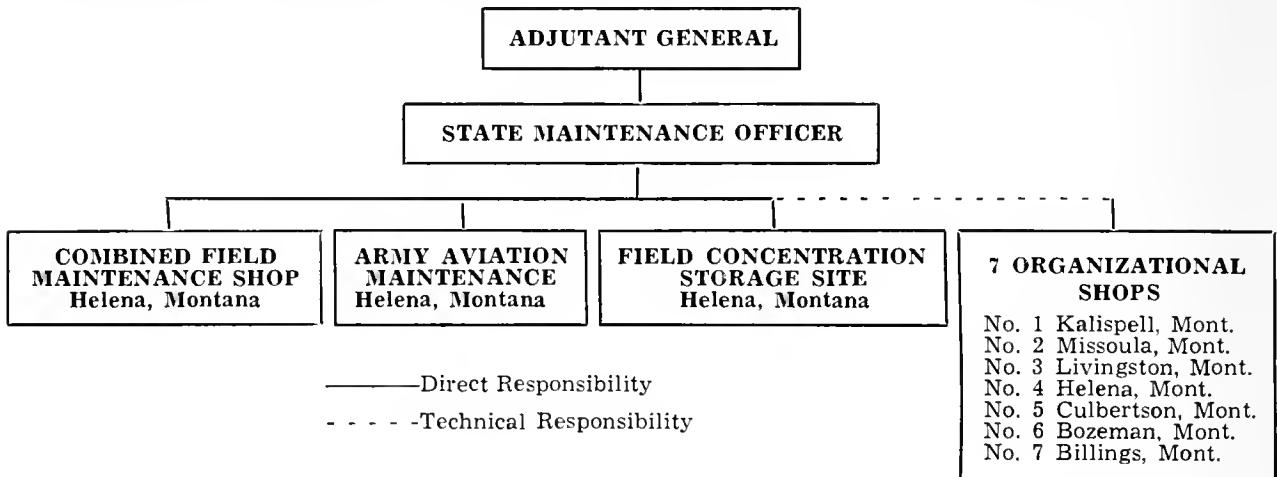

1. **The Adjutant General.** The Adjutant General, representing the State Military Department, is responsible for the proper utilization, care, and maintenance of all Federal supplies and equipment issued to the State.

2. **Maintenance.** Maintenance is defined as any action taken to keep material in a serviceable condition or to restore it to serviceability when it is unserviceable. Thus maintenance of material includes inspecting, testing, servicing, classifying as to serviceability, repairing, rebuilding, and reclaiming.

3. **Maintenance Officer.** The Maintenance Officer is the Staff Advisor to the Adjutant General on all technical matters pertaining to the maintenance of Federal material in possession of the National Guard, and the full time technical advisor for all Unit and Organization Commanders. The Maintenance Officer is responsible for the promulgation of technical orders and instruction, through command channels, pertinent to organization maintenance.

4. **Maintenance Mission.** Personnel of the State Maintenance Office supervise the proper care, servicing, use, inspection, and repair of all Federal (Army) equipment issued National Guard Army units. Supervise and standardize the establishment and allocation of shops; insure that provisions have been made for the evacuation of unserviceable materiel that is beyond the repair capability of the unit concerned; insure preparation of, or instruction of, the proper use and maintenance of equipment, and render all possible assistance in matters relating to maintenance; study requirements for tools and other maintenance equipment necessary for the upkeep and repair and conditioning of Army equipment issued to the National Guard; maintain liaison with the tech service responsible for the replenishment of spare parts and maintenance of equipment beyond the scope of this headquarters; maintain liaison with Headquarters Sixth US Army relative to technical inspections of Army equipment issued to the National Guard.

5. **Organization.** The Maintenance Branch of the Adjutant General Department is organized as indicated in the Organizational diagram as follows:

5a. Personnel of the Combined Field Maintenance Shop perform field maintenance, command maintenance inspections, spot check inspections, and offer technical assistance and information on all Federal equipment issued to the National Guard; furnish contract teams for technical assistance and maintenance in the field; furnish technical advice and assistance to Unit Administrative, Supply and Maintenance Technicians when required; and serve as instructors for all units of the Montana National Guard on maintenance subjects when requested.

b. Personnel of the Army Aviation Section perform Organizational and Field Maintenance and offer technical assistance and information on all Army National Guard aircraft issued to the National Guard, furnish contact teams for technical assistance and maintenance in the field, furnish technical advice and assistance to pilots, and serve as instructors for all aviation sections of the Montana National Guard on maintenance subjects when requested.

c. Personnel of the Category "A" Field Concentration Site inspect all equipment prior to receipt for storage and issue, receive all Category "A" equipment, process for storage and perform scheduled Maintenance In Storage including OVM, Reprocess all Category "A" and reinspect prior to issue, including OVM.

d. Personnel of Organizational Maintenance Shops perform all scheduled organizational maintenance and emergency repairs on organic vehicles. Assist in training unit mechanics in organizational maintenance, records and reports. Conserve spare parts by means of central distribution, and Operate a collecting point for all unserviceable equipment. Provide vehicle storage facilities and supervise MIS of organic vehicles.

6a. **Facilities.** A new Combined Field Maintenance Shop was completed in January 1958 at the cost of \$225,000.00. The shop provides all the modern conveniences for maintenance of equipment. Some of the type equipment maintained and operations are as follows:

Wheeled Vehicles	Painting
Tanks	Welding
Dozers	Machining
Artillery	Cleaning and Lube
Watches	Degreasing and Processing
Instruments	Carpenter
Radios	Canvas and Leather
Small Arms	

b. A new Army Aircraft hangar is under construction at the present time. This will provide long needed storage and maintenance facilities. Type aircraft maintained are as follows:

TL-19	L-20
L-19	H-23 Helicopter

c. The Field Concentration Storage Site moved in to those facilities formerly used by the Combined Field Maintenance Shop.

All of the above facilities are located at Ft. Harrison, with the exception of the Army Aircraft Hangar which is located at the Municipal Airport, Helena, Montana.

d. Recommendations have been submitted to the Chief, NGB for construction and location of OMS where present facilities are considered inadequate.

7. **Personnel.** At the present seventy-nine people are employed in the maintenance program. Manning Table allocations are as follows:

Combined Field Maintenance Shop.....	43	Equipment Concentration Site.....	9
Army Aviation .....	6	Organizational Maintenance Shops.....	21

## STATE SUPPORT

### I. RESPONSIBILITY

Responsibilities of the State of Montana in connection with the support of the Montana National Guard include:

- A. The furnishing of personnel for the allotted units by voluntary recruiting methods.
- B. Furnishing adequate armories for drill periods.
- C. Providing adequate storage facilities for federal property issued the Montana National Guard.
- D. Providing proper supervision and administration to include maintenance of records of the units of the Montana National Guard in the office of the Adjutant General.

**STATE APPROPRIATIONS**  
**Adjutant General Department**

These functions being the responsibility of the State, are supported by funds made available from the General Fund of the State by the State Legislature. Expenditure of these monies during the two-year period is as follows:

**ADMINISTRATION**

Billings Armory—(Completed) .....	29,834.49	
Whitefish Armory—(Just Begun) .....	629.10	
Hamilton Armory—(Just Begun) .....	629.10	
Total Expenditures .....	\$115,107.23	

### III. PERSONNEL

Personnel employed in the office of the Adjutant General of Montana, paid from State Funds, as of 30 June, 1958 are as follows:

Maj. Gen. S. H. Mitchell.....	The Adjutant General for Montana
Maj. Robert A. Keyes.....	Ass't. Adjutant General
Capt. Reuben L. Dwight.....	Training and Facilities Officer
Lt. Raymond Sanders.....	Administrative Assistant and PIO
Lawrence B. Heller.....	Records Clerk, Air Division
Earl L. Rohrdanz.....	Records Clerk, Army Division
Marian C. Kruse.....	Secretary
Josephine A. Dolin.....	Bookkeeper
Julie A. Yahvah.....	Stenographer
Helen A. Bristow.....	Clerk Typist
David A. Petek.....	Publications Clerk
Clarence A. Andrews.....	Custodian—Helena Armory
Louis W. Schwarz.....	Custodian Janitor—Bozeman Armory
Robert Wellington.....	Janitor—Helena Armory

Salaries for the State employees listed below are paid from State funds. However, reimbursement is made by the Federal government to the State in the amount of 75 per cent of such salaries.

William J. Weiser.....	Maintenance Supervisor, Ft. Harrison
John E. Milligan.....	Ass't. Maint. Supervisor, Ft. Harrison
Bert N. Hendrickson.....	Utility Repairman, Ft. Missoula
Joseph V. Carson.....	Custodian Janitor—Gore Field
Roger A. Wadsworth.....	Utility Repairman—Gore Field
Louis Dabson.....	Janitor—Gore Field

## FEDERAL SUPPORT

### I. GENERAL

Responsibilities of the Federal government in the support of the National Guard include clothing, equipping, supplying, and arming individuals and units. The Federal government also furnishes outdoor training facilities and supervises training. All pay and allowances to individuals for field training, attendance at Service Schools, and armory drill are from Federal funds. Subsistence is furnished to enlisted men at field training and service schools by the Federal government.

### II. SUPPLY AND EQUIPMENT

In addition to furnishing clothing, arms and equipment, the Federal government through the National Guard Bureau, provides for the maintenance of these items. Funds are available for equipment repair, and cleaning and repair of uniforms. In the Air National Guard, where maintenance of aircraft and vehicles is a major problem, a substantial number of air technician personnel is employed on a full time basis, with funds also being made available for necessary full time administrative and supervisory specialists. Each company-size Army unit is authorized to employ on a full time basis a mechanic, general, unit materiel, usually referred to as a unit caretaker. He assists in the supply and maintenance function of the unit. Many units, depend on their need, also have an administrative assistant on a full or part time basis to assist in the "paper work" activities of their unit. Maintenance personnel of the State Maintenance Shop and the Equipment Concentration Site are all paid for by Federal monies. All accounting clerks in the office of the USP & FO are carried on Federal payrolls.

### **III. NON DISABILITY RETIREMENT**

Public Law 810, which provides non-disability retirement pay for officers and men of the National Guard in the highest grade held by them was approved by the President 29 June, 1948.

The act provides an additional incentive to younger men to join the National Guard and remain active, and further compensate older guardsmen who have given many years of service to their country.

The law provides that any person not a member of a regular force, who attains the age of 60 and who has performed satisfactory service in the status of commissioned officer, warrant officer, or enlisted person in the Army or Air National Guard, and who has completed an aggregate of 20 or more years' satisfactory service in any or all of the services shall be granted retirement benefits.

### **IV. CIVILIAN EMPLOYEES**

The National Defense Act permits the employment from Federal funds of caretakers, administrative assistants, air technicians, accounting clerks, and maintenance personnel. Men employed as caretakers, air technicians, and administrative assistants must be members of the National Guard, and must be assigned table of organization positions in units comparable to those they held as civilian employees, to preclude any disruption of duties in the event of mobilization. All maintenance personnel and most accounting clerks are also members of the National Guard. Employees paid from Federal funds as of 30 June, 1958 were:

#### **ROSTER OF FEDERALLY PAID EMPLOYEES**

Name	Job Title
<b>USP &amp; FO TECHNICIANS</b>	
Peter Tyanich.....	Administrative Assistant

## V. ALLOTMENT OF FUNDS

The magnitude of the operation of the Montana Army and Air National Guard and the extent to which it is a source of income to the State of Montana is apparent when it is realized that Federal funds of over eleven million dollars has been expended for its support during the biennium. The Guard therefore is worthy of the whole-hearted support of every community where a unit is located if for no other reason than its being a source of income to the locality.

**FEDERAL FUNDS EXPENDED IN SUPPORT OF  
MONTANA ARMY NATIONAL GUARD**

## FACILITIES

### I. ARMORIES

A responsibility of the State in the operation of the Montana National Guard is the furnishing of armory facilities for training purposes and for the storage of supplies and equipment. This has been, and remains, a major problem in Montana although this situation has been alleviated to some extent during the past two fiscal years. While some State-owned facilities are available, many units are located in space which is rented from individuals, cities and other media. Some of the State-owned and most of the rental space is entirely inadequate for efficient assembly and instruction of troops and does not provide adequate or secure storage facilities. Units which must train in such sub-standard armory space are faced with difficulties in maintaining a high proficiency in training as well as finding their recruiting problem multiplied many times by not being able to offer an attractive meeting place. The fact that units of the Montana National Guard have been able to obtain excellent results with their training program is due to the keen interest of individuals concerned as armory facilities in general are still inadequate.

The Congress of the United States enacted legislation to assist States in the construction of armories on a fund-matching basis. This fund-matching is based on a 75% Federal and 25% State level. The Legislative assembly of the State of Montana on March 2, 1957, appropriated \$126,000.00 in funds to match federal support funds for the construction of armories in the state. Since that time armories have been constructed in Kalispell, Glendive, Sidney, Miles City and Billings and construction is underway on armories in Hamilton and Whitefish.

<b>Location</b>	<b>Type of Facility</b>	<b>FY</b>	<b>State Share</b>	<b>Federal Share</b>	<b>Total Cost</b>
Kalispell .....	Multiple-Unit Armory Building.....	1957	\$ 28,544.47	\$ 85,633.35	\$114,177.82
Glendive .....	One-Unit Armory Building.....	1957	18,549.20	55,647.62	74,196.82

Several years ago government funds were made available in limited amounts for the construction of motor vehicle storage buildings for housing Federal vehicles and equipment. Funds for this construction were 100% Federal. In Montana such buildings have been erected at Billings, Kalispell, Chinook, Malta, Harlowton and Helena. In all cases but one, it has been necessary to utilize these structures as temporary armories, although they are not adequately designed for such use.

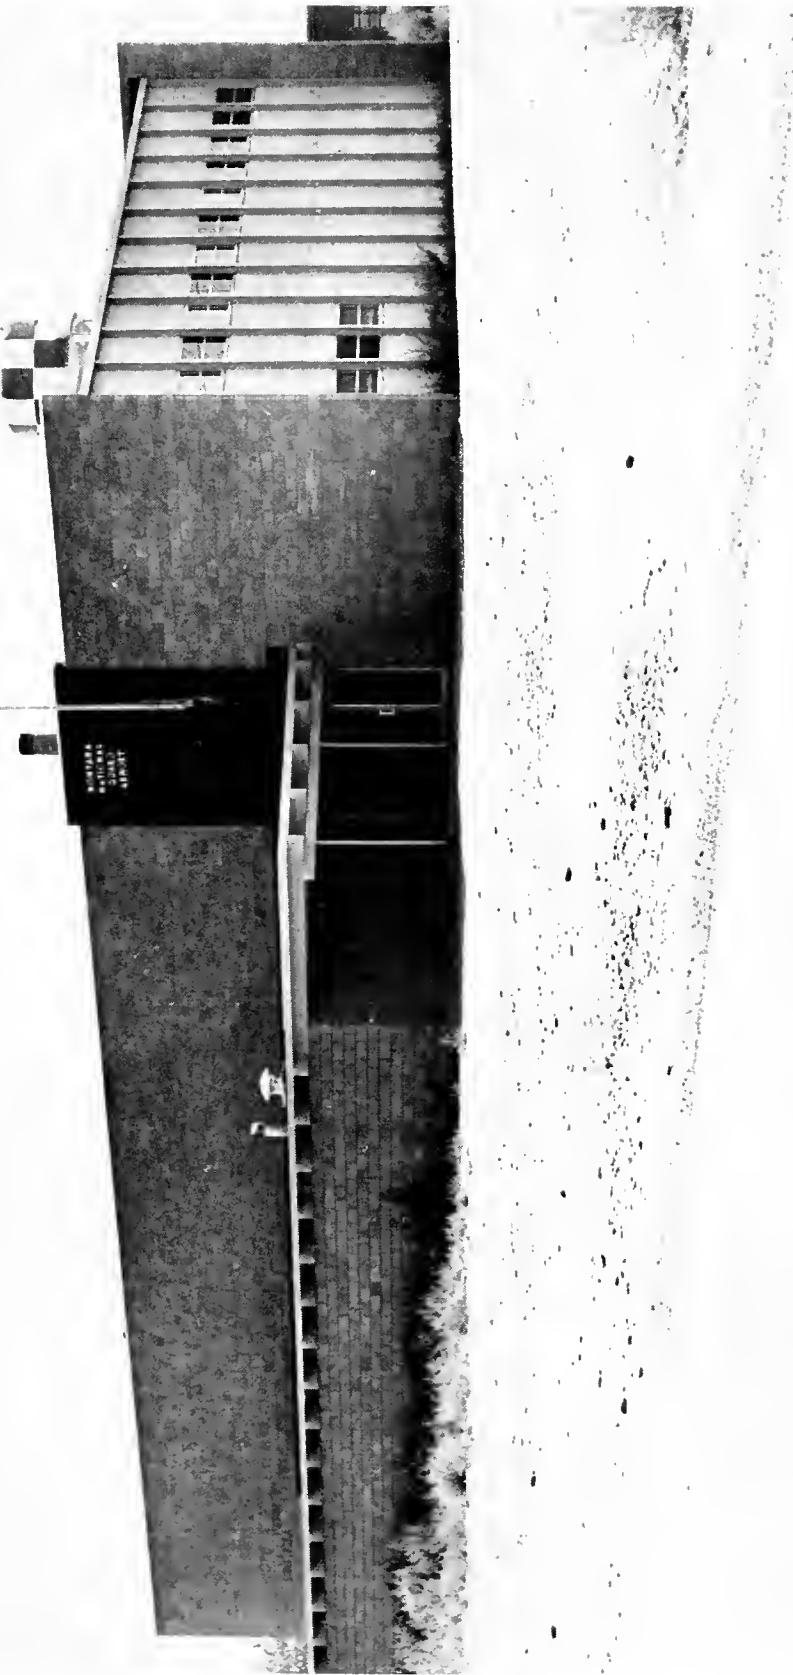

Rental space consists of space in civic centers, garages, warehouses and other types of structures. Following is the list of army units with their present armory housing.

<b>Unit and Location</b>	<b>Type of Facility</b>	<b>Acquisition</b>
State Hq. and Hq. Det.—Helena.....	Armory Bldg.....	State Owned

## **II. FEDERAL FACILITIES**

Fort William Henry Harrison, a Department of the Army facility, is made available to the State of Montana by a license extending for a period of five years. In the past this license has always been renewed and undoubtedly will be renewed when the present term expires. Fort Harrison is used for summer field training, armory training for those units indicated as such above, and is the location of the Equipment Concentration Site. Some USP & FO warehouses are also located there.

A portion of Fort Missoula Military Reservation, including the Target Range Area, is also licensed by the Department of the Army to the State of Montana. This facility, as shown above, is used as armory and storage space for Guard units located in Missoula.

The Air National Guard at Great Falls, Montana, has a newly constructed hangar completed in 1955. In addition the hangar, a Base Supply Warehouse, Motor Pool and Fuel Storage Building have been constructed. Also many improvements such as runway paving, construction of parking ramp, rocket storage building have been completed. Presently under construction is the new Operations and Training Building. This \$350,000.00 facility will house the Group Headquarters, have complete Medical facilities and also a mess hall.

A breakdown on the facilities of the Air National Guard is listed below:

Pavements and Runways (Federally owned on leased land) .....	\$ 902,302.00
Buildings and Structures (Federally owned on leased land) .....	\$1,076,635.00
Construction in Progress (Federally owned on leased land) .....	\$1,649,090.00

## **III. STATE LAND**

In 1957 the State of Montana made available to the National Guard 6 acres of land adjacent to Fort William Henry Harrison, Montana. During the past two fiscal years several structures were constructed on this land the cost of which was borne 100% by the Federal Government. These structures consist of a Combined Field Maintenance Shop, Organizational Maintenance Shop Building and a Paint, Oil and Dope Storage Building. All the land in this area was also inclosed by a chain-link security type fence and hardstand was placed where vehicles would be stored outside. The cost of this was also supported by 100% by the Federal Government. These facilities become the property of the State of Montana.

## **IV. SERVICE CONTRACTS**

For federally owned or leased facilities at Fort Harrison, Fort Missoula and Gore Field, the cost of maintenance and operation of buildings and grounds is considerable. Since the federal government has an interest in these facilities, service contracts between the State and Federal governments have been entered into to provide for reimbursement to the Adjutant General by the National Guard Bureau for 75% of the cost of maintenance and repair of the building and grounds. These contracts were continued in effect during the biennium with only slight changes. The amounts covered by the contracts are as follows:

### **SERVICE CONTRACTS**

Location	FY 1957		FY 1958	
	Federal Share	State Share	Federal Share	State Share
Fort Harrison .....	\$14,059.04	\$ 4,686.34	\$16,464.92	\$ 5,488.30
Fort Missoula .....	\$ 2,518.03	\$ 839.34	\$ 2,971.34	\$ 990.44
Gore Field .....	\$17,786.96	\$ 5,928.99	\$18,265.69	\$ 6,088.56

## AIR NATIONAL GUARD

### I. GENERAL

Prior to World War II the entire National Guard of Montana consisted of Army units. With the reorganization of the Guard after that war, the State was authorized to organize an Air Force Fighter Squadron with its supporting units. Because of the housing requirements for this type of unit and the necessity of locating it near one of the larger centers of population, Gore Field near Great Falls was chosen as most nearly meeting requirements. Therefore on 27 June, 1947 the 186th Fighter Squadron, S.E. and supporting units were activated at Gore Field.

At the beginning of fiscal year 1948 the Montana Air National Guard had just completed their first summer encampment which had been held at Gore Field.

On the 1st April, 1951, the 186th Fighter Sqdn., Montana Air National Guard was called into active Federal Service and were sent to Moody Air Force Base, Valdesto, Ga., for training, and they were in active federal service until December, 1952.

### II. TRAINING

The Air National Guard is authorized 48 training periods each year. During the year the Air National Guard holds their training periods on Saturdays and Sundays. Credit is given those attending for two normal armory assemblies for each day attending drill. This system proved to be very satisfactory in attendance and allowed increased training of personnel of the units. Greater stress was placed on specialist training. Mess personnel prepare noon-day meals for those personnel attending the weekend training periods. This also provides a greater participation of flying personnel in meeting their yearly requirements.

Since the return from active federal service in 1952 the Air National Guard has sent quite a number of pilot trainees to the Air Force Pilot training program. Since the conversion to all-weather aircraft in 1956 the Air National Guard now has a requirement for Radar-Observer personnel, and have sent a number of applicants to the Air Force for training.

Spring of 1958 the 186th Fighter Interceptor Squadron received the first of the F-89-H aircraft. The "Scorpion" is of the latest Air Force all weather interceptor aircraft and is armed with both rockets and missiles.

The inventory of aircraft as of March, 1958 is listed below. This includes the support aircraft and fighter aircraft.

AIRCRAFT .....	\$20,436,715.00
----------------	-----------------

### III. REGULAR AIR FORCE ADVISER STAFF

#### Mission Of The Air Force Adviser Staff

The mission of the Air Force Adviser staff is to assist the Commander of the Montana Air National Guard in a program designed to build and maintain a unit possessing the highest degree of operational capability. In accomplishing this mission, Air Force Adviser personnel direct their efforts primarily toward assisting the Commander in his training program which is based on Air Force policies and directives, and providing technical and administrative assistance when such is requested by Guard personnel.

#### Roster Of Personnel

Major William D. Lewis, 37632A.....	Air Force Senior Adviser
Captain Earl D. Richards, 27812A.....	Radar Observer
1st Lt. Henry M. Maine, 45729A.....	Radar Observer
M/Sgt. Harvey C. Holland, AF19018106 .....	Personnel Technician
T/Sgt. Miles P. Campbell, AF19315482.....	Administrative Supervisor
T/Sgt. Carl C. Ebbetts, Jr., AF12291911.....	Operations Supervisor
T/Sgt. Albert A. Howdyshell AF15061977.....	Maintenance Technician

**Captain Earl D. Richards, 27812A Radar Observer**

Captain Richards instructs Montana Air National Guard radar observers and pilots in airborne radar interception in accordance with Air Force Training Directives. He administers tactical evaluation checks to Air Guard aircrews to determine eligibility for interceptor aircrew qualification and participates in Air Defense exercises as well as regularly scheduled training flights with ANG interceptor pilots. Captain Richards acts, also, as Air Force Senior Adviser in that officer's absence.

**1st Lt. Henry M. Maine, 45729A, Radar Observer**

Lt. Maine instructs Montana Air National Guard radar observers and pilots in airborne radar interception in accordance with Air Force Training Directives. He administers tactical evaluation checks to Air Guard aircrews to determine eligibility for interceptor aircrew qualification and participates in Air Defense exercises as well as regularly scheduled training flights with ANG interceptor pilots. In addition to the above duties, Lt. Maine is responsible for the administration of the Air Force Testing Program for the unit.

**M/Sgt. Harvey C. Holland, AF19018106, Personnel Technician**

M/Sgt. Holland assists the Montana Air National Guard personnel supervisor in interviewing, classifying and counseling officers and airmen. He audits personnel records and reports, assists in the interpretation of Air Force regulations and administers tests in various career fields.

**T/Sgt. Miles P. Campbell, AF19315482, Administrative Supervisor**

T/Sgt. Campbell is the administrative supervisor of the Air Force Adviser's office. He is responsible for all correspondence between the Air Force Adviser's office, the Air National Guard and the Air Force. In addition, T/Sgt. Campbell is responsible for administering the Air Force testing program under Lt. Maine's supervision.

**T/Sgt. Carl C. Ebbetts, Jr., AF12291911, Operations Supervisor**

T/Sgt. Ebbetts assists the unit's Air Operations Supervisors in planning and scheduling operations activities and in conducting the On-the-Job Training program. He assists in the interpretation of Air Force policies and regulations, and makes recommendations to ANG Operations Supervisors and the Air Force Senior Adviser concerning air operations procedures.

**T/Sgt. Albert A. Howdyshell, AF15061977, Maintenance Technician**

T/Sgt. Howdyshell assists Montana Air National Guard maintenance personnel in repair and maintenance problems and evaluates the maintenance function of the unit for the Senior Adviser. T/Sgt. Howdyshell also assists in administering career field tests and Airmen Qualification Examinations.

**IV. MISSION**

A. The primary mission of the 120th Fighter Group is to plan, coordinate and train the Squadrons of this group to enable it to reach a combat capable status as an Air Defense Fighter Interceptor Group.

**V. GROWTH IN NUMBERS**

A. On 1 January, 1953 the 186th Fighter Squadron received Federal recognition with the following strength:

Officers .....	8	Airmen .....	67
Warrant Officers .....	0	Total .....	75

B. On 15 April, 1956 the Montana Air National Guard was reorganized into an Air Defense Fighter Group. At that time strength was as follows, broken down to subordinate units:

	<b>Off</b>	<b>WO</b>	<b>Airmen</b>	<b>Total</b>
Hq., 120th FGRU.....	5	0	17	22
120th ABRON .....	3	0	66	69
120th MATRON .....	5	1	178	184
186th FINCEPTRON .....	26	0	134	160
120th USAF Infirmary. ....	2	0	8	10
<b>TOTAL</b> .....	<b>41</b>	<b>1</b>	<b>403</b>	<b>445</b>

C. As of 1 July, 1958 the strength stood as follows, which when compared with preceding scheduled reflects a growth over the 2 year period covered by this report:

	<b>Off</b>	<b>WO</b>	<b>Airmen</b>	<b>Total</b>
Hq., 120th FGRU.....	12	0	38	50
120th ABRON .....	12	1	233	246
120th CAMRON .....	6	1	285	292
186th FINCEPTRON .....	46	0	19	65
120th USAF Dispensary. ....	5	0	25	30
<b>TOTAL</b> .....	<b>81</b>	<b>2</b>	<b>600</b>	<b>633</b>

## VI. GENERAL RESPONSIBILITIES

A. Federal responsibilities in support of the Air National Guard include furnishing the following items:

- (1) All supplies, parts and equipment necessary to operation of the Air National Guard and accomplishment its mission.
- (2) All pay for the civilian personnel employed to support the operation.
- (3) All military pay and allowances and subsistence for unit training assemblies, field training, supplemental training exercises and active duty in connection with service or technical schools.
- (4) Transportation of personnel and equipment involved in federally authorized movement or travel.
- (5) Uniforms and other special clothing required in performance of military duties.
- (6) Communication facilities necessary for flight service, telephone service for attached United State Air Force personnel and TWX facilities.
- (7) It has also been the policy of the Federal Government to construct at Federal expense runways, hangars, shops, warehouses and administrative office space where the state is unable to provide adequate facilities.

Montana AFNG Facilities, Great Falls, Montana.

F-89C and F-89H Aircraft, Parked On Ramp, Summer 1958, Great Falls, Montana.

**HEADQUARTERS  
120TH FIGHTER GROUP (Air Defense) (ANG)  
International Airport  
Great Falls, Montana**

#### I. AIR TECHNICIAN

A. The following information is furnished regarding the Air Technician Detachment:

	Total Wages Paid	Average Mo. Salary	Average No. Employees Per Mo.
FY 1957 .....	\$642,135.00	\$395.00	138.6
FY 1958 .....	\$751,215.00	\$411.25	150

B. During the period covered by this report the Air Technician Detachment was increased in size coincident with converting from F-86 Sabre-jets to F-89C Scorpions, all weather fighter interceptors. The latter being a much more complicated and modern combat capable aircraft. During last quarter of FY 58 the organization began converting to F-89H Scorpion which possess rocket and missile firing capabilities. Additional personnel were subsequently authorized to handle this additional aircraft capability. In addition, NGM type personnel received three cest of living wage increases and classification employees received one salary increase during period covered by this report.

The 186th Fighter Interceptor Squadron, Casper, Wyoming, 1958—Officers.

Governors Day, Field Training 1958 At Casper, Wyoming. (Left to Right): Lt. Col.  
R. D. Young, Governor J. Hugo Aronson, Maj. Gen. S. H. Mitchell.

## MONTANA MILITARY ACADEMY

Early in 1957, The Adjutant General directed that an officer candidate school be established and that it be known as The Montana Military Academy. A similar policy has been adopted in 42 states.

The purpose of the Academy is to provide the Montana Army National Guard with officers who have had the opportunity to receive training in an accredited officer candidate school. The Academy replaces several other means of procuring officers for the National Guard.

The program of instruction that is used has been prepared by the U. S. Army Infantry School at Fort Benning, Georgia. It is used by all National Guard officer candidate schools to fulfill the academic requirements. The course of study is 252 hours, which has been divided into three terms, consists of 108 hours at annual field training during June, 36 hours divided into three weekends and the final term of 108 hours which is at annual field training during the following June.

The Cadre and instructors are qualified officers of the Army National Guard of Montana. Instructors are recommended by the major organization commanders on the basis of their ability as determined by observation of proven ability as instructors.

An Academic Board, consisting of the major organization commanders, establishes policies and procedures which are implemented by the Commandant.

The Commandant is responsible to the Academic Board for the operation of the Academy. These responsibilities include providing instructors, constructing a schedule of instruction to include practical application of leadership principles, arrange for supplies and services for the cadets, detail qualified officers to act as tactical officers, and any of the numerous activities in connection with the procuring of cadets and their training.

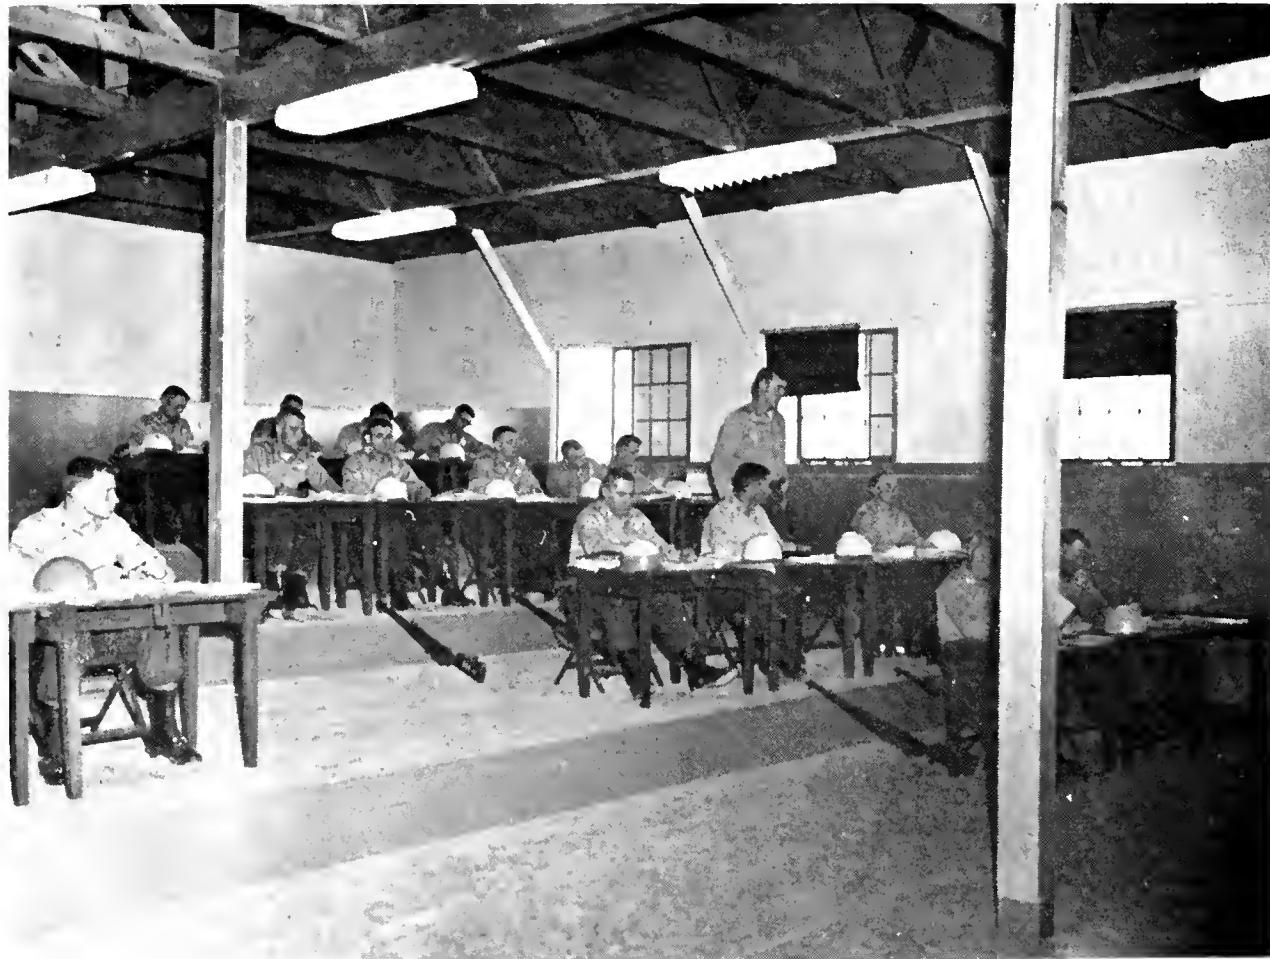

Qualified Warrant Officers and enlisted men of the Army National Guard may apply for enrollment in the Montana Military Academy. Their application includes civilian and military history, character references and physical examination. This application must have concurrence of commanders as well as that of a battalion screening board before reaching the Adjutant General's office. The minimum qualifications are outlined in the Montana Military Academy Manual.

One class has been graduated from the Montana Military Academy. Sixteen officers are now members of units after having successfully completed the course of instruction and been passed by a Federal Recognition Board. Thirty cadets were enrolled in the first class, however, sixteen successfully completed the course.

Class No. 2 (58-59) has a current strength of 22 cadets. These cadets like the recent graduates, are members of units throughout the state and come to Helena for two annual field training periods as well as three weekends during the year. Since the scheduling of classes is done in this manner it is possible for an individual to complete the prescribed course of instruction without being absent from his home and work for 3 months or more at a service school conducted by the regular establishment.

The Academy has met with a certain amount of success in that inspectors are well pleased with the operation and commanders seem to admire the manner in which the cadets conduct themselves at the Academy as well as in their home unit during Armory drill periods. The strict discipline and military bearing of the cadets seems to "rub off" on others at the summer camp and during Armory drills.

Major Arvild Christensen, was appointed as the OCS Commandant by Major General S. H. Mitchell, Adjutant General for Montana in March 1957.

**Montana Military Academy Classroom—Field Training—1958.**

## TROPHIES AND AWARDS

### I. THE EISENHOWER TROPHY

A. General—The Eisenhower Trophy is named for General of the Army Dwight D. Eisenhower, former Chief of Staff of the United States Army, who consented to a request by the Chief, National Guard Bureau, that his name be used in connection with a trophy to be awarded after the end of each calendar year to the most outstanding company-size unit of the National Guard in each State and Territory.

B. Award—This trophy will be in the form of an urn. It will be presented to the winning unit at a suitable ceremony during the field training period. The name of the winning unit will be engraved on the urn, which will remain in the custody of the unit during the current year. Thereafter it will be replaced with a smaller replica to remain in the permanent possession of the unit.

C. Selection of Winning Unit—The winning unit will be selected within each State by a board composed of:

- a. The Adjutant General.
- b. The Senior federally recognized tactical Army Commander.
- c. The Senior Army Advisor.

D. Rules Governing the Award—The board will consider only such units as have accomplished all of the following:

- 1) Strength (all fractions of personnel to be counted as a whole).
  - a. All units (including detachments) which have maintained 70 percent of the officers and warrant officers authorized in the full strength column of the applicable TOE throughout the calendar year.
  - b. All company and battery sized units which have attained 50 percent of the enlisted personnel authorized by the reduced column of the applicable TOE.
  - c. All detachments or units authorized less than 50 enlisted personnel under the full TOE which attain 90 percent of the enlisted personnel shown in the reduced strength column thereof.
- 2) Units which have thereafter maintained during the calendar year and average aggregate attendance of officers and enlisted personnel of 90 percent of the actual strength of both armory and field training.
- 3) Units which have achieved an adjectival training index rating of EXCELLENT or higher on Army National Guard Training Evaluation Report.

Units receiving the Eisenhower Trophy are as follows:

For Calendar Year 1956, Awarded Field Training 1957: SERVICE BATTERY, 639TH FIELD ARTILLERY BATTALION, KALISPELL, MONTANA, Commanded by Captain Earl C. Willey.

For Calendar Year 1957, Awarded Field Training 1958: SERVICE BATTERY, 639TH FIELD ARTILLERY BATTALION, KALISPELL, MONTANA, Commanded by Lt. James A. Root.

### II. THE S. H. MITCHELL TROPHY

A. General—The S. H. Mitchell Trophy, is named for the Adjutant General Major General S. H. Mitchell.

B. Award—This trophy is in form of a urn. It is presented at field training each year.

C. Selection of winning unit. The S. H. Mitchell trophy is awarded on the basis of statistical information on recruiting.

D. Rules Governing award of the Trophy—Award will be made to the unit registering the greatest aggregate gain between 1 April and 31 May of each year proceeding field training.

Winners of the S. H. Mitchell Trophy:

1957: "F" Company, 163d ACR, Choteau, Montana, Commanded by Lt. Gordon F. LaFournaise.  
1958: B Battery, 443d Armed FA Bn., Hamilton, Montana, Commanded by Lt. Emery O. Buker.

### **III. THE DAV CUP**

A. General—The DAV cup is so named for the Disabled Veterans Organization of Helena, Montana.

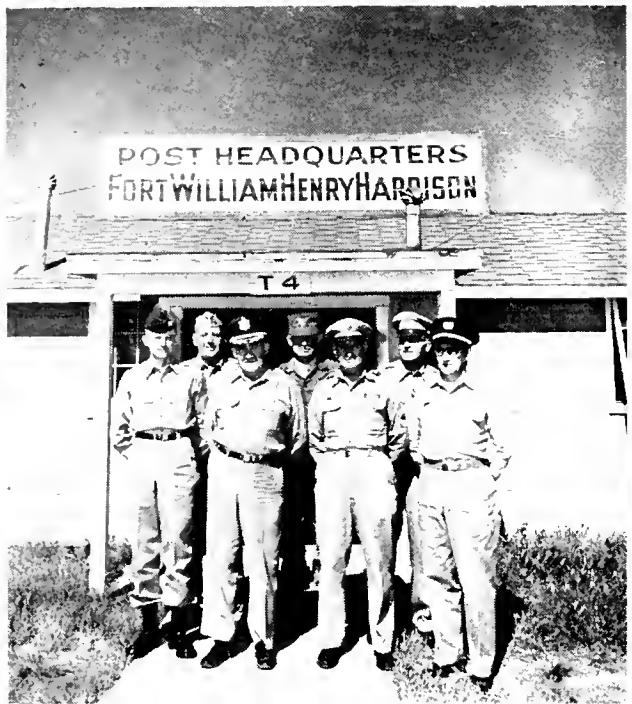

B. Award—The DAV Cup is in form of a urn. It is presented to the winning unit at field training each year. The name of the winning unit is engraved on the urn.

C. Selection of Winning Unit—Selection of the winning unit is made from the reports by the Regular Army Inspection teams during field training. The award is for the outstanding unit in participation, training, and achievement.

Winners of the DAV Cup are as follows:

Field Training 1957: 3669th Ordnance Company, Helena, Montana, Commanded by Lt. John T. Liston.

Field Training 1958. 3669th Ordnance Company, Helena, Montana, Commanded by Lt. William M. Liston.
